Pasta Recipes From Around the World

Tips on Cooking Pasta:

Pasta tastes its very best when eaten right after it’s cooked. The golden rule is to cook pasta “al dente” — neither too raw nor too cooked. To taste pasta at its finest, just follow these simple guidelines and cooking times:

- Pour a generous amount of water (1 liter per 100 grams of pasta) into the pot, and place pot on high heat. Add salt (10 grams per liter of water).
- When the water begins to boil, add the pasta to the pot.
- Let the water return to a boil, stirring the pasta from time to time, cooking it per the “boiling time” displayed on the pasta label.
- Use a colander to drain the pasta, and then put the pasta on a plate. Add your favourite sauce, mix well and serve hot.
